

# Friday, May 20<sup>th</sup> Meeting Notes

## Group 7 Technology Plan

In the meeting tonight we first talked about the wiki. We agreed that Dana will edit and bring together the wiki these final days before it's due on Sunday.

Our school will be named "District Seven School District."

### **Meeting Updates:**

- All work is in on Saturday by Midnight on MVGs
- Tori will upload the info to PowerPoint
- We will all put voice on the PowerPoint Sunday

### **Our Mission: (Anna)**

- whole person
- excellence
- reaching every learner
- preparing students for success

### **Shared Values: (Jill)**

- Every child can learn.
- We will involve our community through projects, banquets, speakers, STEAM summer camp, family game night, playground fundraiser, math and science night, and career day etc.
- In the next 3 years, our school will differentiate instruction.

**Goals: (Sonja 1, Tori 2 and Dana 3)**

1. We will have two professional development activities a month. One will focus on training in technology. The other one will focus on implementing it in the classroom.
2. We will increase support staff. In the next 3 years, we'll be hiring enough staff to support such as tech integrator, network support staff, informational technology specialist to be in the building and support the staff.
3. We will improve overall student performance K-12 by 5% in Math and Reading by using differentiated tools to identify and address the student.
